Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group I. Claims 1-9, 14-22, and 27-30, drawn to a method of generating color template design by suggesting a color based on generate histogram, classified in class 345, subclass 589.

Group II. Claims 10-13, 23-26, and 31-33, drawn to automatic adjustment of colors of a template using a cursor, classified in class 345, subclass 856.

2. The inventions are distinct, each from the other because of the following reasons:

The inventions listed as Groups I and II do not relate to a single general inventive concept under MPEP rule 805 © because, they lack the same or corresponding special technical features described above which characterized the novelty of each invention.

In this case, the particulars of Group I as claimed are not required for Group II because the cursor required in Group II is not necessarily needed to generate the color template suggested in Group I. Further, the search strategies required for Group I would not be applicable or required for group II due to their distinct technical features.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one

Art Unit: 2676

or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
